May 2023

Dear Parents/Guardians,

The Clarence Central School District is continuing to conduct our annual Leader in Me surveys from May 22 - June 2nd, 2023 for students, families, and staff. These surveys help us to identify key areas of strength and growth that may be needed within our schools. We then use this data to help us plan thoughtfully for improvement throughout the following school year.

We ask that parents/guardians please complete the survey linked below (without sharing your name or any other identifying information). This survey is completely voluntary but will be **extremely valuable** should you choose to participate. This will assist our process of planning support for students and families for the 2023-2024 academic year. Your experience, and that of your child, are unique and important and will be genuinely appreciated in our pursuit of understanding and growth.

This survey should take about 12-15 minutes to complete. Questions on the survey will be asked about your child and his or her experience within our school. If you have more than one child within our school district, **we ask that you take the survey-based only on the experience of your eldest child.**

There are seven links below. Again, **please select the survey that best fits your oldest child.**
