November 17, 2020

Dear CMS Parents/Guardians:

The Clarence Middle School has been designated as a Limited Service Laboratory site for COVID-19 testing. The testing tents will be set up in the front of the building. This designation will have an impact on drop-off and pick-up procedures in the front of the building. Parents normally dropping students off in the morning after 8:35 should use the upper parking lot which will be primarily empty. This will be true for afternoon pick-up as well. Please follow the traffic pattern that will be established by orange cones. Also, there will be staff present to assist with the flow of traffic. Please be patient and cautious as we become accustomed to this temporary situation.

Early morning drop-off (8:15 - 8:35), regular drop-off (8:35 - 8:55) and afternoon pick-up will remain the same on the auditorium side of the building. Again, we urge you to use patience and caution while driving to ensure the safety of all our students.

Parents can still utilize the 15-minute spaces in the front parking lot for late arrivals/early dismissals and to pick-up materials. Please see the attached map for a visualization of the plan described above.

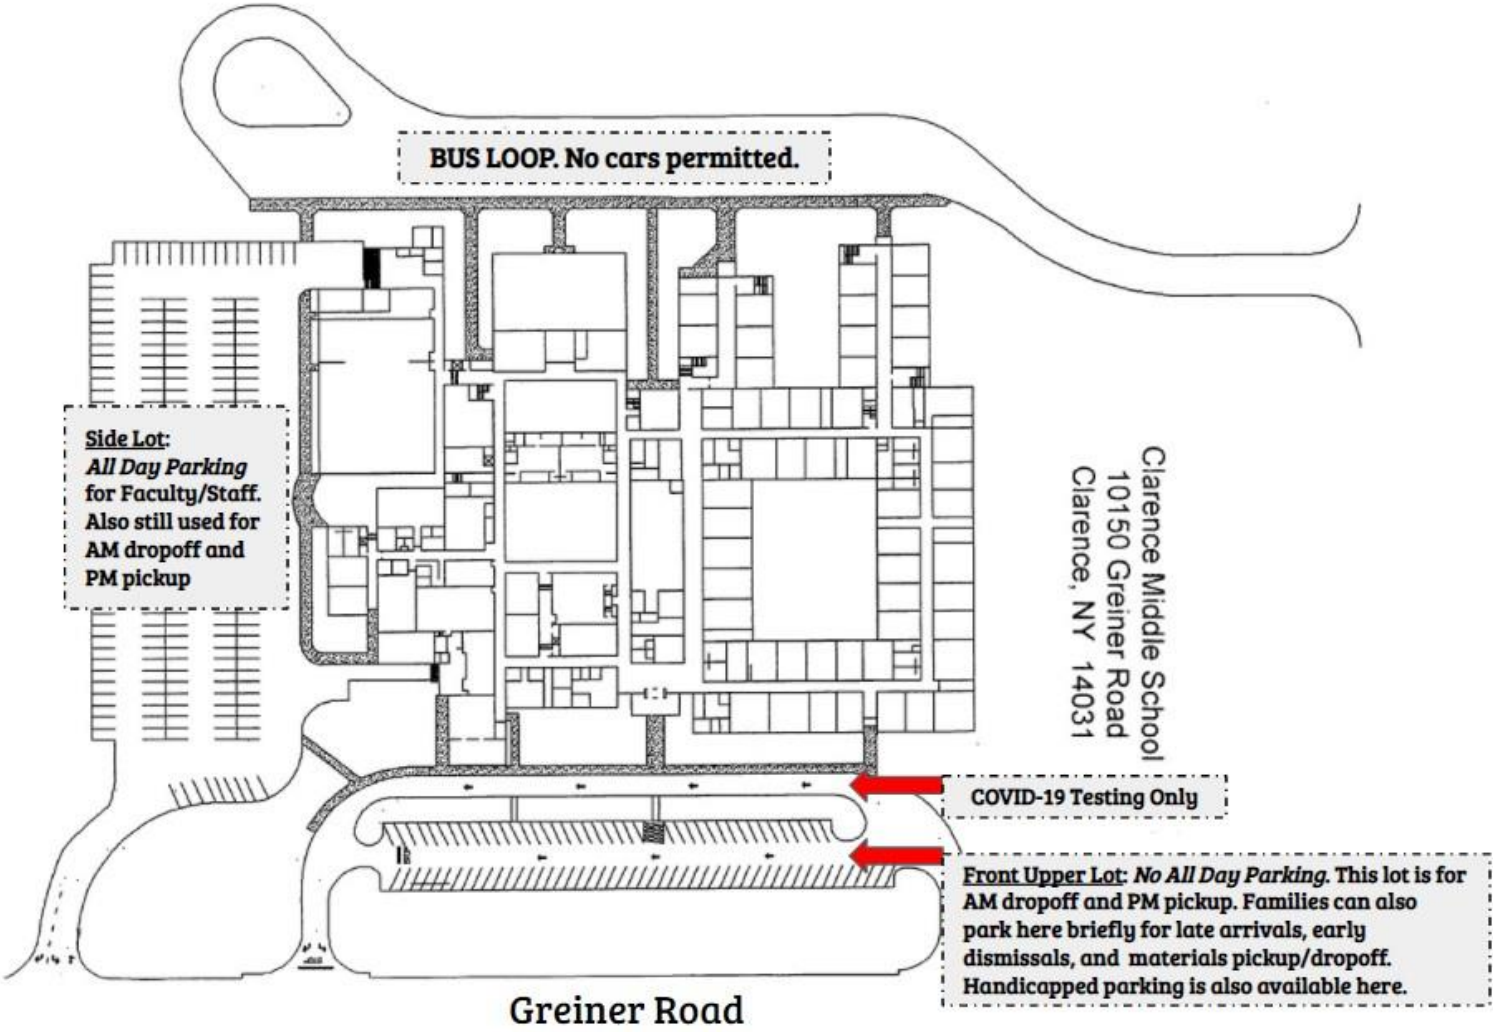

Sincerely,

Robert Moore
Principal

Ashley Dreibelbis
Assistant Principal
