DIRECTOR: TOM FURMINGER

DISTRICT GRADE 5 ORCHESTRA

DIRECTOR: JAMES IEDA

ACCOMPANIST

WILLIAM LAMBERT

Concert Etiquette

**Please follow these guidelines
for appropriate concert behavior:**

1. Arrive on time.

If you are late, please wait until the end of the selection before entering the hall so that latecomers trying to find a seat will not distract the performers and other audience members.

2. Listen quietly while the performance is taking place.

Performers and audience members should never be distracted by unnecessary talking and movement.

3. Applause at the end of a performance.

Applause should be used only at the completion of a piece of music and that is generally indicated when the conductor's arms are dropped to the side.

4. Please do not wave or call out to performers.

Students have worked hard for weeks to prepare for performances. Please do not distract them with improper concert behavior. Applause, as noted above, is the best way to thank the performers.

5. Stay for the entire performance and wait until the end of the selection to leave.

If there is an emergency and you must leave before the final performance, please wait until there is a break in the program.

Please silence your cell phones.

PROGRAM

5TH GRADE ORCHESTRA

CRYSTAL CITY MARCH

MARK WILLIAMS

MINUET FROM WATER MUSIC

G.F. HANDEL / ARRANGED BY MARK WILLIAMS

CONCERTO IN A MINOR RV 356 OP, 2

II. LARGO

Thank You

... for sharing our music with us this evening.

We gratefully thank those members of the faculty, staff, and administration who have contributed to the success of this performance. We also extend our warmest thanks to the students for their dedication, as well as parents & guardians for their continued encouragement, interest, and support.

HAPPY SPRING!

Why Teach Music?

Music is a Science – It is exact, specific; and, it demands exact acoustics. A conductor's full score is a chart, a graph which indicates frequencies, intensities, volume changes, melody, and harmony all at once and with the most exact control of time.

Music is Mathematical – It is rhythmically based on the subdivisions of time into fractions which must be done instantaneously, not worked out on paper.

Music is a Foreign Language – Most of the terms are in Italian, German, or French; and the notation is certainly not English, but a highly developed kind of shorthand that uses symbols to represent ideas. The semantics of music is the most complete and universal language.

Music is History – Music usually reflects the environment and times of its creation, often even the country and/or racial feeling.

Music is Physical Education – It requires fantastic coordination of fingers, hands, arms, lip, cheek, and facial muscles, in addition to extraordinary control of the diaphragmatic, back, stomach, and chest muscles, which respond instantly to the sound the ear hears and the mind interprets.

Music is all these things, but most of all, Music is art – It allows a human being to take all these dry, technically boring (but difficult) techniques and use them to create emotion. That is one thing science cannot duplicate: humanism, feeling, emotion, call it what you will.

That is why we teach music!

*Not because we expect you to major in music;
not because we expect you to play or sing all your life.*

*But so you will be human,
so you will recognize beauty,
so you will have something to cling to,
so you will have more love, more compassion, more gentleness,
more good – in short, more life.*
