**** Please let us know of any ideas or suggestions for future meetings ****
We hope to have full meetings in the Fall, and this is just a brief update with the following items:

- Free Breakfast and Lunch has been extended through June 2022.
 - We are approaching 250 students picking up meals daily and 175 meals that are getting delivered daily.
- While the variety of food for breakfast and lunch is lower, we are still meeting all State & Federal standards for nutrition.
- PE has been difficult while remote and also difficult with distancing and space, but the buildings are doing their best to keep students active. As we move to full time instruction on April 26th, we will take that opportunity with better weather to have the students outside.
- Vaccination Clinic was held at our Middle School with a local pharmacy that had 100 vaccines. Owners of the pharmacy are Clarence Central School District residents that donated them for our faculty and staff.
- Please email if anyone has any questions or concerns.
